

I wanted to voice my objection to imposition of the above "business exemption relationship" which the banks wish to have implemented. This will weaken Indiana's no-call rule, which has dramatically improved the quality of life in my home, as the phone no longer rings with unwanted, unsolicited phone calls. Please do not allow this to be weakened. If I want to talk to an entity I currently do business with, I know where to find them. Thanks for allowing me to express my opinion. This is very important to me.
